### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## DETAILED ACTION

### *Terminal Disclaimer*

The terminal disclaimer filed on 9/24/04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,791,637 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

**Claim 8 is rejected under 35 U.S.C. 102(b) as being anticipated by Domash (U.S. Patent No. 5,937,115).**

Domash discloses a light guide having:

a planar light guiding medium (Figure 4A element 30 or Figure 12 element 80a) being of a liquid crystal material (Column 2 line 64 – Column 3 line 37, Column 5 lines 20-50) and having a top light emitting surface (Figure 4A, waveguide marked 36) and one or more side faces disposed around the top light emitting surface (Figure 4A, waveguide marked 38, opposing waveguide);

a plurality of light pipes, each light pipe having a collector end for collecting light and an output end, the output ends being arranged along the side faces so as to introduce

the collected light into the guiding medium (Figure 4A, waveguide marked 38, opposing waveguide);

wherein the output ends of the light pipes are distributed evenly along the or each side face (one per side face).

***Allowable Subject Matter***

Claims 1-7 are allowed.

The prior art fails to disclose an electronic device having a light guide as proposed providing light to a display area. In particular, the prior art fails to disclose the light guide as having a liquid crystal light guiding medium with a light emitting surface and a side face around the emitting surface in which the output ends of light pipes are arranged along the side faces as proposed.

***Response to Arguments***

Applicant's arguments filed on 9/24/04 with respect to claim 8 have been considered but are moot in view of the new ground(s) of rejection.

In response to applicant's arguments, the recitation "for providing light to a display area" has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to

Art Unit: 2871

stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
